### Hear How Your Peers Have Automated Patient Privacy Monitoring

*Iatric Systems hosts Patient Privacy panel on May 23 with West Virginia United Healthcare and Holy Family Memorial Center.*

**Boxford, MA — May 10, 2013** — Iatric Systems, Inc., a comprehensive healthcare IT integration company, announces a panel on May 23rd, at 11:00 ET, "Hear How Your Peers Have Automated Patient Privacy Monitoring," with Mark Combs, Information Security Analyst at West Virginia United Health System, and Jim Sehloff, Information Security Analyst at Holy Family Memorial Center.

"Complying with Meaningful Use, HIPAA, HITECH, and the Omnibus Rule requires hospitals to monitor thousands of audit lines generated daily as staff and caregivers access patient data," said Rob Rhodes, Senior Director of Patient Privacy Solutions, Iatric Systems. "Our customers tell us that what was previously an impossible task has become routine by using Security Audit Manager's automated reporting and integration capabilities to monitor access to patient records. This is relevant if you have one or multiple HIS's."

Register now for this informative webcast panel and hear your peers explain how they have achieved compliance by automating patient privacy monitoring.

**About Iatric Systems**
Iatric Systems helps healthcare providers achieve success by delivering the most comprehensive healthcare IT integration. Our products and services focus on data integration, systems integration, and process integration. This allows providers to leverage existing IT investments to meet the growing demands of Meaningful Use, Health Information Exchange, HIPAA, and other industry requirements. During the past 23 years, Iatric Systems has delivered solutions to more than 1,000 healthcare organizations. For more information, contact info@iatric.com or visit http://www.iatric.com.
