Corporate Profile

Our Mission

Iatric Systems enables success by delivering healthcare technology solutions that enhance existing investments.

What We Do

We bring together healthcare experience, products, services, and partners to deliver solutions that enhance existing investments in healthcare IT.

Who We Are

We are a team of more than 250 Information Technology and Healthcare specialists dedicated to improving the delivery of care through technology. Our ranks include IT managers, project managers, software engineers, nurses, pharmacists, lab techs, and other medical professionals. Their depth of real-world IT and hospital experience produces advanced, practical solutions that more than 1,300 hospitals use today with confidence.

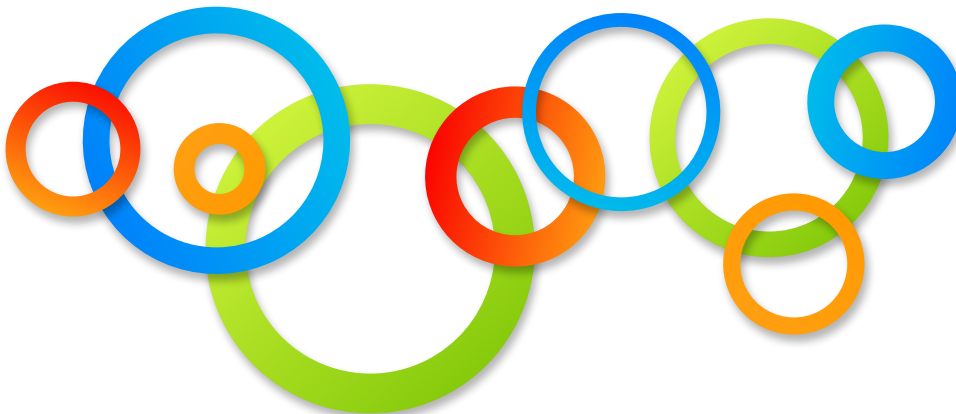

Iatric Systems by the Numbers

Our long history of helping organizations enhance their existing healthcare IT investments includes:

- Supporting more than 1,300 hospitals
- Deploying more than 21,000 interfaces and 1,600 applications
- Integrating more than 800 vendor systems
